We manufacture iPad, tablet and phone cases on a made to order basis. This is because the market is so quick moving that sizes and styles change regularly.

If you have specific requirements for a particular iPad or tablet we can make these to order but would need a sample of the product to make sure the case is made to the correct size with the apertures in the correct place.

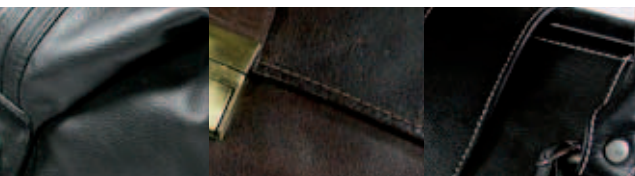

Our skilled craftsmen can produce made to order high quality holdalls and bags.

Please send your enquiries to us. We can manufacture any style and can use different materials and qualities of leather to satisfy most designs and budgetary criteria.

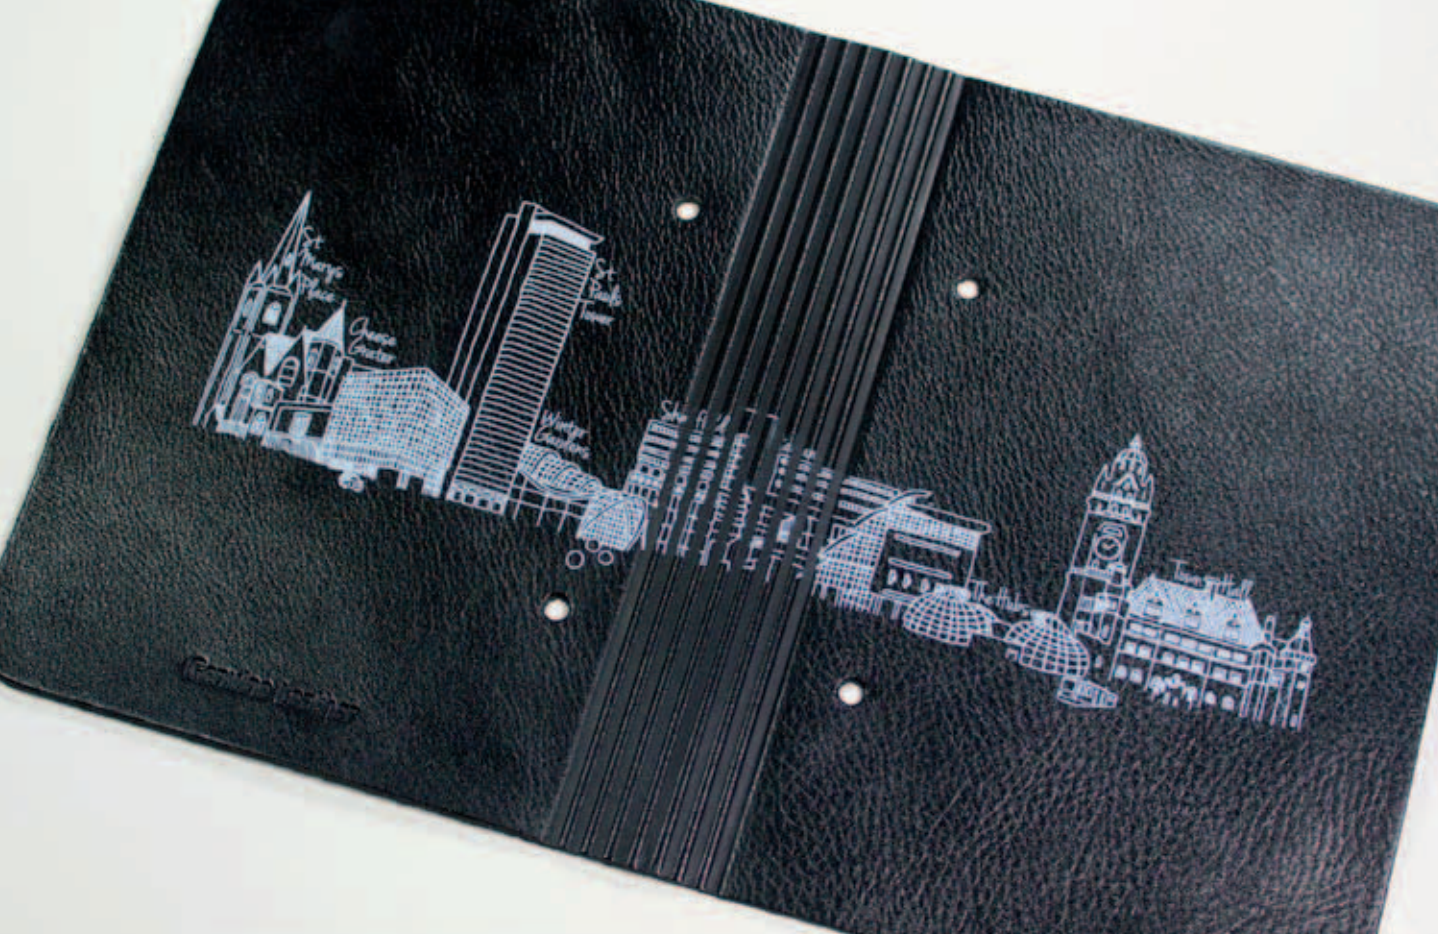

The products on this page are just a few of our bespoke items recently manufactured for our clients.

Our flexible approach to manufacturing enables us to produce products to meet the most exacting budgets and standards. Using a wide range of leathers and alternative materials, we can satisfy most design and image criteria. Several methods of personalisation including blocking, printing, the application of various types of badges and even embroidery are available.

With minimum quantities as low as 50 pieces (larger items such as conference folders) our bespoke service enables you to design and build products specifically to meet individual requirements.

Please contact us for further details.

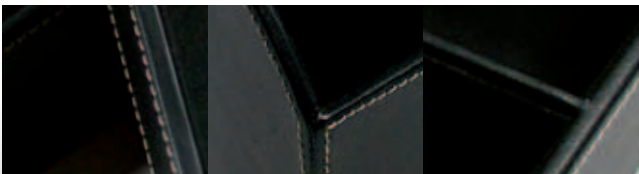

Do you want to make maximum impact with your customers why not produce a limited Edition gift - we can use special leathers and coloured leather trims in corporate colours and we can even add the customer's initials or name to the gift.

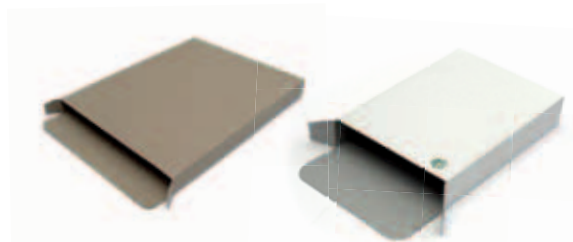

We are able to offer a bespoke range of made to measure desk trays and tidies. Many of these items are used in conference centres and hotels. The wooded frames are made to a high standard by skilled craftsmen and are then covered in leather or PU. Besides the items illustrated we have also made newspaper racks and litter bins so all requirements can be satisfied.

Most of our products are packed in either white or brown tuck fold cartons or lift off lid boxes for the most of the Eco-Verde and Ashbourne items.

Packaging can include personalised tissue and a message on the box lid you don't even need your logo we guarantee that your customer will never forget who gave him the gift.

Leathers & Personalisation

Eco Verde

Our Eco Verde leather is tanned in what is known as the semi veg method which uses eco friendly products such as acacia bark and fish oil extract. The leather itself is rich in both colour and texture and is very high quality leather.

Melbourne

This full hide grained nappa leather with its waxy and luxurious feel is ideal for blind blocking. The leather is tumble dyed with eco friendly agents to make it sustain its suppleness and good feel and it is embossed to give a uniform character throughout.

Chesterfield

Unlined naked leather made from full hide with its natural back exposed which is currently highly fashionable.

Malvern

This smooth soft leather has a thin water resistant coating which means dirt, water and stains are easily removed, making it a long lasting and hard wearing leather. It is suitable for both blind and foil blocking. Malvern leather is also available in short runs in pantone matched colours.

Darwin PU

Available in 5 standard colours. This PU will block deeply to give any logo maximum impact.

Warwick

Warwick is a genuine leather which silver or foil blocks really well – we can also offer a short run pantone matched service in Warwick leather.

Ashbourne

The Ashbourne is a full hide oil pull up leather giving a rustic aged finish for a modern product. Stocked in brown this is a natural tanned leather.

Burlington PU

Burlington Soft feel high quality PU range of products is designed to represent excellent value for money whilst offering a high quality build. The range can be blocked or printed.

Our standard stock range is manufactured using 6 leathers and 2 choices of PU offering options of quality, feel and budget.

Foil Blocking

Identical to blind blocking but a layer of foil is placed between the blocking die and the product so that colour is added to the logo when blocked. Most popular colours are gold and silver although a wide range of coloured foils are available. Please note we cannot match pantone colours when foil blocking.

Embossed

Embossed logos or logos where the image is raised above the surface of the leather can also be a very effective method of creating maximum impact. The blocking has to be done prior to the final product being assembled.

Multi Coloured Blocking

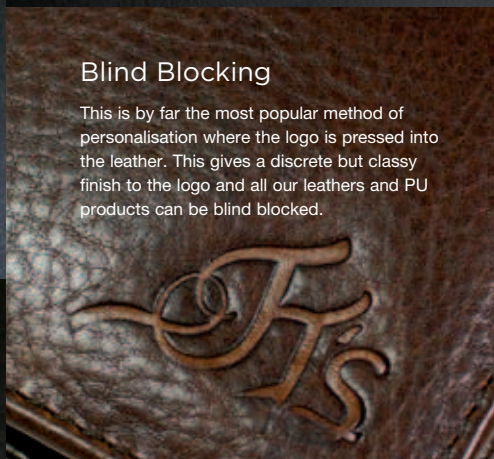

There are occasions when clients want to feature a multi coloured logo. We can achieve this by blocking each colour separately, building the logo in stages for a really terrific impact. Please note we have to personalise the leather prior to the product being made up so there may be minimum quantity requirements.

Sreedhar System

Blind Blocking

This is by far the most popular method of personalisation where the logo is pressed into the leather. This gives a discrete but classy finish to the logo and all our leathers and PU products can be blind blocked.

Badges

These bring another dimension to the personalisation of products and can incorporate colours and be manufactured in various materials.

Printing

we can now offer a printed service up to a 4 colour process on our PU and less expensive leather ranges.

There are several different methods by which we can personalise our items with your logo or promotional message. All our blocks / dies are made from brass to ensure the highest quality of personalisation to maximise the impact of your logo / brand.

About & Contents

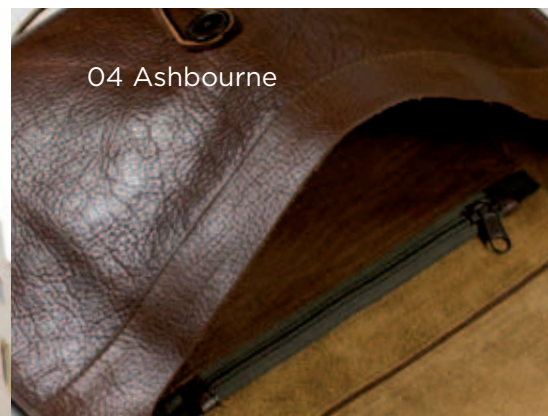

Our aim is to offer a comprehensive range of quality corporate gifts to suit all occasions and budgets. Our products are manufactured to exacting standards ensuring a high perceived value, whilst representing excellent value for money.

We are constantly striving to improve the quality and range of our products. To this end, this year again sees the introduction of many new products. We are also acutely aware of our responsibility to our planet and wherever possible we use recycled materials.

All our paper products and our standard packaging cartons are made from recycled materials.

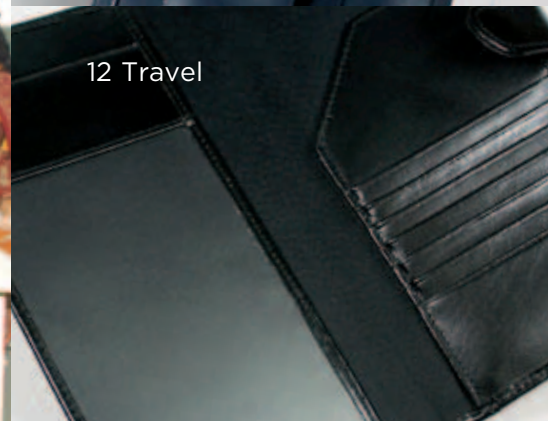

We are also only too well aware of the problems of worker exploitation, our factory in India is UK owned and is run to European standards and **is regularly independently audited**. Our workforce is our greatest asset and we strive to give them not only good working conditions but also the opportunity to develop their own human capital. Programs of worker enhancement including on the job training and company funded night school courses enable our employees to maximise their potential through improved job opportunities which in turn allows them to improve their standard of living. Our commitment to stock and attention to detail enables us to offer levels of service and product quality that is second to none. We pride ourselves on being able to meet the most challenging lead times whether it be from UK stock or direct from our own Indian factory.
